Re: Parking spots

To All Casitas Montana Residents:

As many of you have probably noticed, parking at Casitas Montana has become an issue for our owners and tenants who live here. This letter is a reminder to all of you who live here that each owner has **one** under-covered parking space. This means **only owners**, and not guests, are allowed to park under the covered parking. There have been complaints regarding this issue, and it is not fair to the people that are living here to have to park in a non-covered space or at times, on the street (Louise Dr.). Please remind all of your guests to park in a space that is **not** covered, and if there are no spots available, then they must park on the street.

At the bottom of this letter is a list of the assigned parking spots by unit number. Please remember to abide by this system and remind your guests the next time they come over to park in a non-covered parking space.

Thank you for your cooperation,

HOA Board
